

2005 Annual Report

ANNUAL GENERAL MEETING

GAS PROCESSING ASSOCIATION CANADA

Wednesday, March 29, 2006

ENMAX Ballroom, 4th Floor, Calgary Chamber of Commerce

11:45 – 12:00 Registration

12:00 Luncheon served

12:00 – 12:20 GPAC Annual General Meeting Agenda

1. Call to Order
2. 2005 President's Report
3. Treasurer's Report
 - 2005 Financial Statements
 - 2006 Budget
4. Endorsement of 2005 Board Actions
5. 2006 President's Report
6. Other
7. Adjournment

12:20 **Keynote Luncheon Address**

Alberta's 2nd Century: Boundless Energy - Jim Dinning

Jim Dinning serves as chairman of the board of directors of Western Financial Group. As well, he serves as a director on a number of public, private and not for profit boards. Until December, 2004 Mr. Dinning held the position of Executive Vice President, TransAlta Corporation. Prior to joining TransAlta in 1997, Mr. Dinning held several key positions during his eleven years as a member of the legislative assembly in Alberta. Of note is Mr. Dinning's service as provincial treasurer from 1992 to 1997.

2005 President's Report

2005 was a milestone year for the Gas Processing Association Canada. Following our merger in late 2004, it was back to business as normal, although there is nothing of a usual nature when you represent the needs of some 700 members and over 200 companies.

GPAC continues to reflect the core values of our members. We are an organization that strives to increase the awareness of issues within our industry and determine attainable initiatives on a go forward basis. Our other key objectives remain:

- Provide a forum for the exchange of ideas and technologies pertinent to our industry and members.
- Provide a forum for networking and social camaraderie.
- Provide a focal point for the furtherance of safety programs and initiatives.
- Provide a reasoned tone and common basis on issues requiring government and regulatory support.
- Provide support to institutions that assist in the development of gas processing professionals.
- Represent GPAC members not only in Calgary, but throughout Alberta and the rest of Canada.

On all these points we have met with considerable success in 2005. Attendance is up significantly for our technical and social events for this past year. Our Northern Committee continues to provide valuable and timely events for members. We have made strong progress in our efforts to inform government and regulatory officials. We have kept our registration costs under control at association events, allowing all of our members to participate. We have streamlined our financial support of post secondary institutions. And lastly, we are making headway in our plan to increase membership levels and corporate support.

As everyone knows, there is a tremendous amount of effort required to run an organization as broad and diverse as GPAC. I would especially like to recognize the efforts of several key individuals that are now retiring from board service:

- Past President (CGPA), Terry Killackey, Taylor NGL Ltd.
- Past President (CGPSA), Brendan Macken, Fluor Canada
- Secretary, Bill Leach, Petro-Canada
- LARAC co-Chair, Blaine Clark, Keyera Energy
- LARAC co-Chair, Paul Cahill, BP Canada
- Program co-Chair, Darren McRae, Toromont Process Systems
- Education co-Chair, Jeff Bowron, Duke Energy
- Membership, Bruce Parsons, Gas Liquids Engineering

I would like to congratulate Darrel Purdy as he assumes the corner office for 2006, and wish him success as he brings new energy and vision to the board of directors and our association. I look forward to seeing everyone at upcoming GPAC events.

Dean Milner
2005 GPAC President

Treasurer's Report

Our fiscal year concluded on December 31, 2005 with a closing cash balance of \$160,329 with a further \$57,312 in investments. Expenses of \$357,976 exceeded revenue of \$333,551 by \$24,428 in 2005.

This was the first year of the merger of the two associations, CGPA and CGPSA. The adjustments in membership structure, to allow for all memberships to be renewed at year-end, resulted in a decrease in membership funds, while the board increased publicity, safety awards and Northern Committee support.

With the merger of the two boards and two sets of accounting books we have elected to have our records reviewed by a third party, Schultz Leong LLP Chartered Accountants of Calgary. In the future we will defer back to the guidelines to have the books reviewed by two GPAC association members. If any discrepancies are discovered during the review that is underway, they will be presented at an upcoming technical session.

Unaudited 2005 financial statements follow.

Education and Research Committee Report

The year 2005 was a transition one for the E&R committee as we moved to assimilate the operations of the two committees into one combined portfolio.

The GPA Engineering Databook sales were taken over by Associations Plus in mid-September. It is quite to the credit of A-Plus that they were able to keep up to the demand. The number of unit purchases remained above average although not quite the rush we had in 2004. For the twelve months ending December 31, 2005 we sold a total of 160 units compared to last year's 207 and 2003's 133. I do believe this trend will increase as our customers take advantage of the fact that both the CD and the hard copy are combined. Amanda has also continued the active promotion of these new volumes at all of the quarterly meetings. One final point to this section is the fact that the Gas Processing Association of Canada did become a member of the (US) GPA which will help to ensure that all of the GPAC members can access ALL of the GPA publications for the "member discount price". One of the goals of the 2006 year will be to try and partner up with educational and training facilities to promote the Databooks for the courses of study as well as extend membership to the new recruits coming into our industry.

As a follow up to the sleuthing of 2004, I was able to uncover the actual contacts at each educational institution with regard to where the CGPSA Bursary money is maintained and dispersed. Remembering that in 2000, there was a huge surplus of cash in the bank and the BOD of the CGPSA for that year decided to provide Bursary money for the University of Alberta, NAIT, SAIT and the University of Calgary. The amount for each institution was \$10,000.00. The money is held in endowment accounts by each school and an award of somewhere between \$500.00 and \$1000.00 per year is to be given to a deserving student in an "engineering discipline". This award is decided on by each school's Student Affairs Department. Now that we have this information, it is important to maintain communication with each institution to ensure that the GPAC E&R Committee receives the recipient's name so we can keep a record of the awards for our own use in promoting the Association. For 2006 the Committee is going to suggest some new options for the BOD to consider on how to better utilize the old CGPA scholarship and education funding to improve the impact and coverage that these funds can provide.

In summary for the E&R Committee, the year 2005 was fairly bumpy. I do personally want to say I am grateful for the opportunity to again be a part of the GPAC Board of Directors. I would also like to point out that this portfolio, while it is one of the ones that should be easy to operate once the transition is complete, is a very necessary committee as it focuses on the broader aspects of maintaining the Association's Educational presence at the Universities, Trade Schools and our own Technical Meetings.

Al Niven
Education and Research Committee

Entertainment Committee Report

Entertainment held another eventful year with three main events for members in Calgary area in addition to the Canadian Night at the GPA conference in Texas.

Director Social – June 23, 2005 Chuckwagon Races and BBQ

Twelve directors and their spouses attended the event in High River. Chad Harden's family and supporters joined us for a burger and a social prior to the race. Weather was good, races were great, a little side betting to help add some excitement – it was an enjoyable evening for all those able to attend. Thanks to Spartan Controls for hosting the event and helping with the BBQ.

Golf Tournament - September 8, 2005 Earl Gray Golf Course

280 golfers registered for the tournament. The new two-tourney format and favorable weather provided a very enjoyable day. Great support from several board and association members in organizing and volunteering was appreciated – thank you!

Increased sponsorship and advertising for the tournament contributed significantly to the success of the event. The swing analysis video/booklets added to the conversation during the meals. Initial response from all players toward the new two-tourney format was positive while placing less emphasis on the handicap system and final score.

Special thanks to all volunteers and sponsors.

Presidents Ball – November 18, 2005 Fairmont Palliser

Prime Time Big Band performed for 250 people in an elegant formal affair to start off the Christmas season. Sponsorship and advertising opportunities will exist for 2006.

Richard Bosomworth
Entertainment Director 2005

Northern Committee Report

The Northern Committee had a busy and successful year in 2005. We started off the year with a well attended Technical Session which was held in Edmonton on February 10 at the Coast Terrace Inn with sessions on Pumpjack Energy Reduction and Equipment Reliability through Synthetic Lubrication presented by Brenntag; SCADA updates presented by Tarpon Energy; Under Balanced Drilling presented by Weatherford; CO2 Recovery Project by Keyspan at Rimbey; and High Pressure Plastic Pipe presented by Flexpipe Systems.

A Spring Session was held In Grande Prairie on April 25 with the topic of EUB history, plus Plant and Wellsite Inspections.

On May 31 a tour was held at the Keyspan/Keyera CO2 Facility near Rimbey with a game of golf at Ponoka for the attendees afterwards. This was an informative tour and was well attended with buses coming out from Calgary and Edmonton. The Committee is considering another site tour for 2007.

On June 21 a golf tournament was held in Grande Prairie with a total of 128 golfers. We are looking forward to this being carried on as an annual event organized by the Grande Prairie members of the Northern Committee.

On September 16 (with the hope of no snow) the 17th Annual Northern Committee golf tournament was held at Drayton Valley. Although attendance was down to 86 golfers, a good time was had by all. The event will be moved to an Edmonton location for 2006.

The members of the Northern Committee consist of Barry Kadatz - President, Kirby Lucas - Past President, Wanda Hamilton – Secretary/Treasurer, Directors – Larry Paslawski, Daryl Houghton, Kevin Vandeven, Dave Joinson, Cam Nichols, Andrew Lechelt, Kory Klimosko, Rick Vermeersch.

Barry Kadatz
President, Northern Committee

Safety Committee Report

The key task of the Safety Committee is to coordinate the Annual Safety Awards Banquet held in conjunction with Operations and Maintenance Conference. This well attended event provides an excellent opportunity for GPAC member companies to recognize the safe work practices and procedures by their employees. This year held some unique challenges, being the first year the awards were held under the combined association banner. The committee did an excellent job of collecting and organizing registration forms from the more than 250 respondents. Plaques and certificates are awarded for commendable safety records for the past year. The GPAC website contains a listing of all award winners.

The great attendance by field staff at the banquet always makes for an excellent party and 2005 was another example. Darrel Janz of CFCN was the MC of the evening and, as usual, did a superb job.

Wade Stinson
Chair, Safety Committee

2006 President's Report

GPAC is off to a great start for 2006 with numerous initiatives well under way! As you know we have a distinguished speaker lined up for today's luncheon. Our April 21st Operation & Maintenance Conference has a solid program planned and our Safety Banquet looks to be another fun filled evening where we can also recognize numerous companies in our industry for their safety performance. Our Grand Prairie Technical Session planned April 28th is also coming together, so consider arranging your next field trip around this date. Our Legislation and Regulatory Affairs Committee is getting involved in the Department of Energy's Fuel Gas Efficiency initiative. Look to hear more about this as their work unfolds. I am also pleased to tell you we are working on adding another social event for our members by jointly holding a Stampede Breakfast with the SPE. You will be hearing more about this event from our Social Directors later this spring.

As you know, our industry is "red hot" resulting in everyone having high work loads and lots of people are changing roles with their current employer or moving to other companies. GPAC has not been immune to this reality as two Directors have submitted their resignations due to their changing work commitments. I want to thank Randy Hughes and Glenn Kowalsky for their contribution. With some help from these gentlemen and others we have been able to find two very capable individuals to replace them. Please join me in welcoming Mike Dever from ATCO Midstream and Sandy Szybunka from Brenntag Canada to our Board.

GPAC wants to continue to bring conferences and social events that meet your needs so if you have suggestions for improvements or topics you would like hear about at future conferences please bring them forward. Better yet, consider getting involved with a GPAC committee to help put together a conference or social event. If you are interested please give me a call.

I look forward to seeing you at the balance of our conferences and social events this year.
